

High Five Principles	Outcomes for Students
<p>Change is Constant</p> <p>We change constantly, and so does the world around us – including the working world. Because a single occupation will no longer take workers from the beginning to the end of their working lives, adaptability is an important skill to carry throughout life.</p>	<p>Students will understand that:</p> <ul style="list-style-type: none"> • We change and the world around us also changes; • Change is inevitable and often positive; • It is important to be flexible and resilient through life's changes; • Opportunities often arise from change; and • It is possible to think positively about change and to embrace it.
<p>Learning is Ongoing</p> <p>Completing secondary school, TAFE or university is not the end of learning. People have to recognise, seize and take advantage of their opportunities to learn – opportunities that are everywhere.</p>	<p>Students will understand that:</p> <ul style="list-style-type: none"> • Learning is not just about what they do at school, TAFE or University; • In today's world, people need to keep updating their skills and knowledge throughout their lives; and • You can engage in formal learning at any point in your life – ie if you don't go straight from school to university or further education that pathway is not forever out of reach.
<p>Focus on the Journey</p> <p>Travelling through life is like travelling down a road. Having a destination provides direction, but we still must take one step at a time. We must pay attention to the steps of the journey with their pitfalls, sidetracks, opportunities and possibilities for new destinations.</p>	<p>Students will be encouraged to:</p> <ul style="list-style-type: none"> • Remember the ultimate goal, but also to focus on the steps along the way; • Realise that their life is the journey. The steps along the way can be enjoyed, including the side trips and diversions; and • Appreciate that all life experiences are steps towards a person's future goals – even if some of them do not seem positive at the time.
<p>Follow Your Heart</p> <p>People's dreams can lead to an understanding of what they really want. These desires are prime motivators in shaping a rewarding career. Dreams may be difficult to attain, but no-one should be afraid to pursue them.</p>	<p>Students will see that:</p> <ul style="list-style-type: none"> • Dreaming about the future can help them understand what they want in their lives; • Being focussed on future goals can help you overcome challenges and obstacles; • People are often happier when they follow their passions; and • Their dreams may reveal information about their personality that can assist in achieving their dreams.
<p>Access Your Allies (secondary) and Find Helping Hands (primary)</p> <p>The journey of life is not taken alone. Friends, family, facilitators, neighbours—any of them can be willing and helpful team mates when it comes to deciding what steps to take on life's path.</p>	<p>Students will:</p> <ul style="list-style-type: none"> • Recognise the value and input of the people in their lives; • Understand that they can be an ally to others; • Appreciate the power of teamwork and leadership; • See that they are part of a community; and • Understand that inclusion and compassion can be powerful in people's lives.
